

C-130H TACTICAL LOADMASTER ***REFRESHER / RE-CURRENCY PROGRAMME***

This course is specially tailored to refresh and re-current operational C-130H Loadmasters in tactical roles. During the course, the Loadmaster will be refreshed on airdrop procedures both on the ground and in-flight. These normal and emergency procedures will be taught through the Loadmaster Immersive Trainer (LIT).

SYNOPSIS

The theory will refresh trainees on the procedures as stipulated in the Cargo Loading Manual (-9), Rigging Airdrop Platforms Manual (-5) and Rigging Containers Manual (-11).

The practical training will be accomplished through AviationLearn training centre.

Upon completion, the Loadmaster will be competent and proficient before continuing their actual refresher or re-currency training in the operational unit.

COURSE OUTLINE
